**Title:** NESHAP for Hazardous Waste Combustors (Renewal)

**ICR numbers:** EPA ICR No. 1773.10, OMB Control No. 2050-0171.

**ICR Status:** This ICR is scheduled to expire on June 30, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The affected entities are subject to the General Provisions of the National Emission Standards for Hazardous Air Pollutants (NESHAP) at 40 CFR part 63, Subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, Subpart EEE. Hazardous waste combustors include: hazardous waste incinerators, hazardous waste cement kilns, hazardous waste lightweight aggregate kilns, hazardous waste solid fuel boilers, hazardous waste liquid fuel boilers, and hazardous waste hydrochloric acid production furnaces. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, notification of exceedances, notification of performance test and continuous monitoring system evaluation, notification of intent to comply, notification of compliance, notification if the owner or operator elects to comply with alternative requirements, initial performance tests, and periodic reports and results.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 42 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide

information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of combustion units burning hazardous waste, States

Estimated Number of Respondents: 208

Frequency of Response: Initially, occasionally, semiannually, and annually

Estimated Total Annual Hour Burden: 142,447 Hours

Estimated Total Annual Cost: \$19,665,792, includes \$100,059 for annualized capital cost and \$3,951,790 for operation and maintenance (O&M) costs.

Changes in the Estimates: There is a decrease of 57,450 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This burden decrease is due to a decrease in the number of estimated hazardous waste combustors affected by this ICR since the last renewal.
